PIĘKNO NA CO DZIEŃ EVERYDAY BEAUTY

Każdym naszym produktem udowadniamy, że proza codziennego życia może być naznaczona pięknem.
With every our product we prove that everyday life can be marked with beauty.

RODZINA DOŚWIADCZENIE WZORNICTWO FAMILY EXPERIENCE DESIGN

Fot. B.Marciniak

JAK TO SIĘ ZACZĘŁO

W 1985 roku z marzeń i pasji tworzenia zrodził się Marmorin. Początek naszej działalności to produkcja blatów i stołów z lanego marmuru. Z biegiem lat zajęliśmy się produkcją umywalek i wybraliśmy specjalizację w branży sanitarnej. Spełniające najwyższe normy produkty początkowo trafiały głównie na rynki europejskie, a my zdobywaliśmy doświadczenie w produkcji dla innych marek i marzyliśmy o własnej. To marzenie się spełniło. Do portfolio umywalek dołączyły brodziki i wanny sygnowane logo Marmorin. Dziś wyróżniane za wzornictwo, wykonane w nowoczesnych technologiach produkty cieszą się uznaniem w Polsce i na świecie. Nie przestajemy marzyć i nie boimy się sięgać po więcej.

HOW IT STARTED

Marmorin was born 1985 of dreams and passion for design. Our activity started with production of counter-tops and tables made of poured marble that was soon followed by washbasins. We decided to specialise in sanitary equipment. Our high quality products initially enjoyed popularity in Western Europe and we were gaining experience from manufacturing for other brands dreaming of our own one. This dream came true. Our portfolio expanded with shower trays and bathtubs signed with Marmorin logo. Our products are highly valued both in Poland and abroad and are nowadays frequently awarded for design and state-of-art technology. We still have dreams and we are not afraid of taking up new challenges.

ŁAZIENKA

Wprowadzenie do produkcji nowoczesnych materiałów otworzyło Marmorin na swobodę kształtów i wyobraźnię projektantów. Nowa oferta zdobyła uznanie wśród klientów. Medal dla naszej umywalki na targach Budma zapoczątkował długą listę wyróżnień za design. Pojawiły się pierwsze sukcesy sprzedażowe. Otworzyły się przed nami nowe rynki. Dziś mamy na swoim koncie trzydzieści lat doświadczenia, kilka milionów produktów w łazienkach na kilku kontynentach i Oscara w świecie designu - wyróżnienie red dot design award - dla jednej z naszych wanien. To wynik zamiłowania do dobrego wzornictwa i wytrwałości w poszukiwaniu rozwiązań doskonałych. Wierzymy, że codzienność potrafi być wyjątkowa i wiemy jak to zrobić.

BATHROOM

Start with production of modern materials opened for Marmorin freedom of shapes and released designers imagination. The new offer was appreciated by clients. The medal of Budma fair our washbasin was awarded with was the beginning of long list of design awards. First sale successes started and new markets opened. Today we are proud of 30 years' experience and millions of our products being used in bathrooms over a few continents. Our greatest pride is however the Oscar in design world – red dot award for one of our bathtubs. The success resulted from love for good design and diligence in searching for perfect solutions. We believe that every single day is exceptional and we know how to create an exceptional everyday.

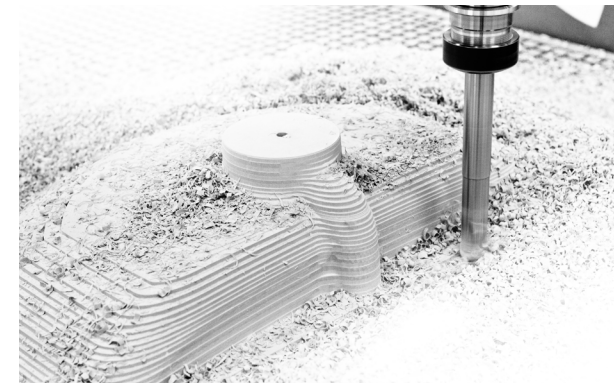

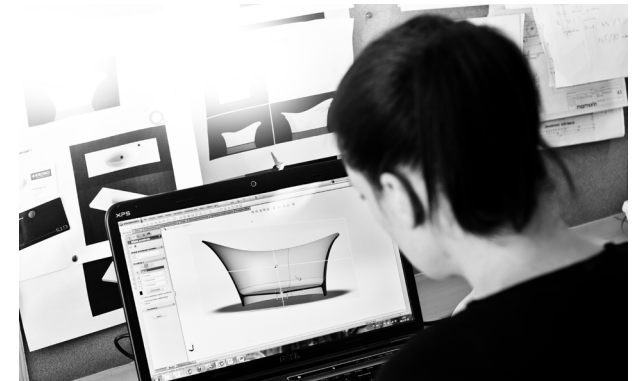

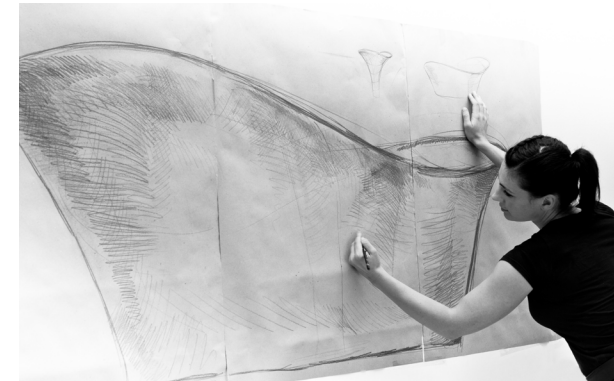

Fot. B. Marciniak

Marmorin Design Studio to przede wszystkim ludzie. I to jeszcze nic niezwykłego. Niezwykli są oni – specjaliści w kilku dziedzinach: projektanci, graficy, modelarze, pracownicy laboratorium, zjednoczeni wokół jednego celu.

Marmorin Design Studio is based first of all on people. It is nothing unusual, but unusual are the people themselves – professionals in a number of branches: designers, graphic designers, model builder, lab specialists, all focused on the same goal.

DUROCOAT® MATERIAL

12

12 lat gwarancji
12 years warranty

35%

35% bardziej
wytrzymały
35 percent
more durability

DUROCOAT® MATERIAL łączy w sobie wszystkie cechy naszych materiałów, za które cenią je Klienci. DUROCOAT® MATERIAL to kolejny krok w dążeniu do perfekcji. To możliwość kreowania pięknych, indywidualnie dopasowanych produktów o większej wytrzymałości.

The DUROCOAT® MATERIAL embodies only the best features, so vastly respected by our customers. Mar-morin's DUROCOAT® MATERIAL is the next step in the continuous search for perfection. It offers novel possibilities in creating beautiful, custom-designed products with increased durability.

GELCOAT® MATERIAL
GELCOAT® MAT MATERIAL

5

5 lat gwarancji
5 years warranty

Nasze umywalki, brodziki i wanny powstają z materiału, w którym zmielony na mączkę kamień dolomitowy został połączony z żywicą. Jako jedni z pierwszych w Polsce opracowaliśmy własny GELCOAT® MATERIAL o unikatowych parametrach technicznych. Materiał zawiera kompozycję wyselekcjonowanych frakcji dolomitowych, wzbogaconych uzdatniaczami.

Our washbasins, shower basins and bathtubs are all manufactured with the use of a novel material. This material is an amalgam of a finely ground dolomite stone and a synthetic resin. We were among the first manufacturers in Poland to create our own GELCOAT® MATERIAL characterized with truly unique technological features. This material was created on the basis of a selected range of dolomite fractions and refining compounds.

SOLID® MATERIAL

5

5 lat gwarancji
5 years warranty

Niepalny
Non-flammable Fully

To jednolita masa łącząca żywicę z tlenkami aluminium. Dodatkowym atutem jest jego niepalność. Produkty z SOLID® MATERIAL są niezwykle cenione na świecie. Ze względu na doskonałe właściwości SOLID® MATERIAL jest wykorzystywany przy inwestycjach i realizacjach dedykowanych obiektom publicznym.

The SOLID® MATERIAL is an uniform mass combining resins and aluminum oxide with inflammability being one more benefit of this material. The SOLID® MATERIAL products enjoy wide recognition all over the world. Thanks to its unique properties, it is highly popular in public utility buildings and similar facilities.

LABORATORIUM I TESTOWANIE WYROBU
LABORATORY AND TESTING OF PRODUCT

Czuwanie nad jakością to domena działającego w ramach firmy, certyfikowanego laboratorium. Jego nowoczesne wyposażenie i fachowość wysokiej klasy specjalistów, pozwalają na wykonanie wszystkich, niezbędnych w procesie wdrażania i produkcji badań.

„LABORATORIUM BADAWCZE UZNANE PRZEZ TÜV RHEINLAND POLSKA SP Z O.O.” ŚWIADECTWO UZNANIA NR: TÜV - LAB - 02

„THE RESEARCH LABORATORY WAS ACKNOWLEDGED BY TÜV RHEINLAND POLSKA SP Z O.O.” ACKNOWLEDGMENT CERTIFICATE NO.: TÜV - LA B - 02

Quality monitoring is provided by own certified laboratory of the company. Modern equipment and know-how of high class specialists allow to conduct all the necessary research procedures required in the implementation and production process.

JAKOŚĆ GWARANTOWANA
QUALITY GUARANTEED

Gwarancja trwałości i odporności wyrobów jest efektem zaawansowanych technologii produkcji oraz stosowania materiałów nowej generacji.

The resistance warranty of products results from advanced manufacturing technology and usage of new generation materials.
